Research Background and Methodology

putting **consumers** first

Methodology

national consumer agency
gníomhaireacht náisiúnta tomhaltóirí

- A nationally representative sample of 1,000 adults aged 16+ was achieved via a hybrid research methodology of online and face to face interviewing
- To ensure that the data is nationally representative, quotas were applied on the basis of age, gender and social class
- 850 interviews were conducted online and 150 face-to-face
- Fieldwork was conducted between 18th- 28th March 2011
