## Amazon recall power adaptors

📅 MARCH 1, 2016

Amazon are recalling power adaptors included with the **UK Fire 7"** and **UK Fire Kids Edition 7" tablets** due to a safety concern. In some circumstances when the adapter is pulled from the wall socket the adaptor assembly may detach and create a risk of electric shock.

The affected adaptors were sold in Ireland since September 2015 and all bear the model number FABK7B.

**AFFECTED POWER ADAPTER**  
MODEL NO: FABK7B

### What to do:

Please stop using this adaptor. You may still charge your tablet by using the included USB cable connected to a computer or alternatively another compatible adaptor.

Amazon are offering two options for Consumers to replace their adaptors. Consumers may choose to accept a free replacement power adaptor or alternatively may request a £12 credit to be applied to their account.

Further information on the recall and details of the exchange process may be accessed directly through the following link:
