

PRODUCT RECALLS

BlendJet Ltd. recalls BlendJet 2 Portable Blender

📅 JANUARY 9, 2024

BlendJet Ltd is carrying out a recall of BlendJet 2 Portable Blender.

The risk associated with the product is fire and injury. The PCB (Printed Circuit Board) within the product may overheat while charging causing it to catch fire. Also, in certain circumstances of intensive use, a blender blade may break off, releasing a fragment, with the consequent risk of laceration of an internal digestive organ if it is swallowed.

The brand is BlendJet. The affected units are among the following serial numbers: **5201**000000 through and including **5542**999999.

Any BlendJet 2 with a serial number that begins with **5543** or a greater number is not subject to this recall, as it already features the updated base.

There are approximately 11,877 affected products in the Republic of Ireland. The product was sold from October 2020 to November 2023

What to do:

If you believe that you may have purchased an affected product, discontinue use immediately.

To check if your product is affected, please enter the serial number that appears on the base of the product into the specific landing page prepared by BlendJet (linked below) to confirm if your portable blender is included in the recall:

<https://blendjet.com/safetyandrecall> for general information on the recall or more specifically for checking serial numbers please use [BlendJet - Product Registration](#)

If your product is affected by the recall, you can request a free replacement base unit or a refund through the online forms given in the above links.

For any further information, please contact BlendJet directly via email at safety@blendjet.com or by calling the free-toll number +1-844-334-0562.

Customers can also contact BlendJet by WhatsApp:+1 8887012093 or through any of the following social media: Facebook, X (Twitter), Instagram.
