## Dacia recalls certain Sandero and Logan passenger vehicles

📅 JULY 18, 2018

A voluntary recall is being carried out on certain Dacia Sandero II (X52) and Dacia Logan II MCV passenger vehicles. The effected vehicles were produced between February 2013 and June 2015.

Dacia has identified a safety issue, whereby, due to a manufacturing fault, the fuel pipe may rub on the headlight cable and/or air-conditioning hose, which can cause a fuel leak onto the road surface.

There are **2291** effected vehicles on the Irish market.

### What to do:

Dacia will be contacting consumers by letter, in order to arrange an appointment for necessary repairs to be carried out.

If you believe that your vehicle may be effected by this recall then please speak to your dealer or alternatively contact Dacia's customers relations team on **1890 771 771** with your VIN number.
