Halfords recall Air Runner Balance Boards

 DECEMBER 1, 2015

Air Runner Self Balancing Boards (190375 / 192470/192488 – black and white versions)

Halfords have identified that a small number of Air Runner Balance Boards (black and white versions) have been sold with a mains plug and charger that are not fully compliant with the National Standards Authority of Ireland. This affects products with the above serial numbers only, with no others affected.

What to do:

Halfords have removed the item from sale whilst a full investigation takes place and are asking customers not to use the product and to return it with the mains plug and charger to their local Halfords shop, where they will receive a full refund.

Customers who have a query should contact the Halfords customer services team on (+44) [0345 504 53 53](tel:03455045353).
