## Halfords recalls Halfords Mains and 12V leisure inflator

📅 MAY 13, 2022

Halfords is carrying out a recall of Halfords Mains and 12V leisure inflator.

The risk associated with the product is that of electric shock. There is a risk of the mains plug not failing safely and potentially overheating. This issue could be potentially dangerous and could pose a safety risk.

The affected products were manufactured from November 2021 to January 2022. The type/model number is JY-015 (Mains Adaptor model no. YD1202A-Y). The Halfords Item code: 290251.

There are approximately 180 affected products in the Republic of Ireland. The product was sold in store and online in Halfords.

### What to do:

Customers should stop using the product and return it to Halfords. Customers should return the product including all components as shown in the images above to the store at their earliest possible convenience. When the inflator is returned to store a refund will be given.

If you have any difficulties in returning the product to your local store, please email Halfords at [customer.services@halfords.co.uk](mailto:customer.services@halfords.co.uk)
