These products have a manufacturing defect which may cause the exhaust to become very hot so that there is a risk of suffering a burn in the event of accidental contact with the exhaust cover, or, in extreme cases, a risk that the machine could catch fire.

1,632 of these affected models have been sold on the Irish market.

What to do

If you have an affected product, please stop using it immediately.

In order to have your product modified to make it safe, please contact Hitachi so that arrangements can be made for its return.
