Honda Jazz recall

 FEBRUARY 21, 2011

Honda Ireland is carrying out a voluntary recall of all Honda Jazz models manufactured between 2002 and 2008 as part of an international Honda Jazz recall.

This is due to the possibility of the dipped headlights failing while driving.

This recall affects 2,854 vehicles in Ireland.

What to do:

Letters will be sent by Honda Ireland to owners of all affected vehicles asking that they bring their car to their local Honda dealer for the required work to be carried out.

The work carried out as part of the recall will be completed free of charge.

For further advice, consumers can contact their local authorised Honda dealer or alternatively a member of the Honda Customer Service Department by phone at (01) 6423100 or email customerservice@honda.ie
