Honda recalls Jazz and Civic models

 NOVEMBER 21, 2014

Honda Ireland has issued a voluntary recall of certain Jazz and Civic models produced in 2004. This is a separate recall from the one involving the passenger air bag initiated in June of this year.

The recall is being carried out due to a potential problem with the driver airbag. The driver airbag could deploy abnormally in a crash which could possibly lead to injury.

There are approximately 100 vehicles affected in Ireland.

What to do

Honda Ireland will be contacting the owners of all affected vehicles by mail and asking them to take their vehicle to a Honda dealer or authorised repairer. The dealer will arrange for the replacement of the inflator. This work will be carried out at no cost to the owner. You can get more information from Honda Ireland on (01) 6423100 or by emailing
