Kingavon Branded Gas Heater BB-PG150I product recall

📅 NOVEMBER 9, 2017

Hamble Distribution Ltd, have identified a potential safety risk with the IGT regulator supplied with their unit, Kingavon branded BB-PG150I 4.2Kw Gas Heater.

The potential risk from these regulators is leaking gas once the gas heater is connected to the gas bottle. This recall only applies to heaters sold between 05 October and 05 November 2017. The affected regulators are date stamped 10/17LYF and images of these are shown below.

What to Do

If you have purchased one of these heaters during this period, please return it to the retailer (listed below) where it was purchased, in order to get the regulator replaced, or collect a replacement regulator.
