## Mitsubishi recalls certain 'ASX (GA1W)' passenger vehicles

 SEPTEMBER 25, 2018

A voluntary recall is being carried out on certain Mitsubishi ASX (GA1W) passenger vehicles. The vehicles were produced between 2011 and 2018.

Mitsubishi has identified a safety issue, whereby, it is possible that the weld between the rear exhaust and tailpipe may crack. As a result, the tailpipe may detach and drop on the road causing accidents.

In the Republic of Ireland, approximately 355 passenger vehicles are affected by this recall campaign.

### What to do

Mitsubishi Motors Ireland will be contacting affected vehicle owners by letter. If you believe that your vehicle may be impacted by this recall, you can find the contact details for Mitsubishi Motors Ireland [here](#), or alternatively, you can speak to your local Mitsubishi dealer.
