Motea GmbH recalls Crafride Big Spoke Felge wheel rims

📅 MARCH 11, 2022

Motea GmbH is carrying out a recall of Crafride Big Spoke Felge wheel rims.

The affected products were manufactured between 04 December 2020 and 23 July 2021.

The risk associated with the affected products is that of injuries. Cracks can develop in the wheel rims, as a result of which there is a risk of loss of control.

There are approximately 21 affected products in the Republic of Ireland.

What to do:

If you purchased one of these products you are requested to please stop using your motorbike as long as the rims are mounted. This also applies in the event that you do not notice any abnormalities on the rims.

All customers were informed several times by e-mail and by registered letter and requested to return the affected rims. In addition, Motea GmbH have published the recall on their website and this gives instructions on how to return the product for a full refund:
