Nissan recalls certain 'Nissan Micra' passenger vehicles

 APRIL 6, 2020

Nissan Ireland is carrying out a voluntary recall of 'Nissan Micra' passenger vehicles. The vehicles in question were manufactured between October 2016 and November 2019.

Nissan has established a safety concern, whereby it is possible that there are cracks in the passenger airbag which make it less effective as a protection, meaning that, when it inflates, the risk of injury could be increased.

There are 1,468 vehicles affected on the Irish Market.

What to do:

Nissan Ireland will be writing directly to affected vehicle owners in order to arrange an inspection of the airbag and a replacement, where necessary. Consumers can check if their vehicle is involved in this voluntary recall by contacting their local Nissan Dealer/Authorised Repairer or they can check-online through their [website](#).

Alternatively, consumers can contact Nissan Ireland Customer Relations on 1850 302 302 or by email to customer.service@nissan.ie
