## Opel Ireland recalls Corsa / Adam

 NOVEMBER 23, 2016

Opel Ireland is carrying out a voluntary recall of certain models of the Corsa / Adam produced between October 2014 and January 2015.

Cracks in the steering box's rack-and-pinion may lead to breakage and thus to steering failure.

There are a small number of affected vehicles on the Irish market.

### **What to do**

Opel Ireland will contact the owners of all affected vehicles by mail and ask them to take their vehicle to an Opel dealer. The dealer will arrange for the replacement of the affected part if necessary. This work will be carried out at no cost to the owner. You can get more information from Opel Ireland directly on 01-533 9818.
