Product Safety Information Notice on a Personalised Baby Soother holder on the eBay Platform

📅 MARCH 8, 2024

A safety issue has been identified with a Personalised Baby Soother holder on the eBay platform.

The product presents a risk of choking and strangulation as the product contains detachable small parts that a child can put in their mouth and choke on. The bead component of the soother holder has no ventilation holes. A child can put the bead component into their mouth and as there would not be enough air to pass around it, the child may choke. The product also has a length of 308mm, which is longer than the maximum permitted length for these products, therefore, there is a strangulation risk.

The brand, model, batch number and barcode are unknown.

The product was sold online through the eBay platform by the seller barsukas69.

What to do:

Given the online availability of this product, it may have been sold to customers in the Republic of Ireland.

If you purchased one of these products, please stop use immediately and discard the product. You may wish to contact the eBay seller to see if there are any remedies available to you. This can be done via your user account on eBay.
