## Product Safety Information Notice on Children's Light-Up Wristwatch sold on the Wish platform

📅 MAY 1, 2025

A safety issue has been identified on a Children's Light-Up Wristwatch sold on the Wish platform.

The risks reported to the CCPC are chemical and choking. The battery compartment can be easily opened, making the button batteries accessible. A child might swallow them, causing choking or gastrointestinal damage. The plastic material of the product contains high levels of phthalates, which can harm children's health, potentially affecting their reproductive system.

The type/number of models are J04-04, 181694 and 11JJ301370. The unique identifier is: 62554a2eccc05f968a8bcf12.

There is 1 affected product in the Republic of Ireland.

### What to do:

If you purchased one of these products, please stop use immediately and discard the product. You may wish to contact Wish to see if there are any remedies available to you. This can be done via your user account on the Wish platform.
