Recall of Mushroom teether Toy for babies

 MAY 19, 2022

Amazon is carrying out a recall of a “Mushroom Teether Toys for Newborn Babies, Toddlers, Infants, Relieve Sore Gum – BPA-Free Chew Toy” sold on their platform.

The affected products were listed on Amazon since 24 September 2021.

A safety issue has been identified with the affected products, where the mushroom head of the soother can flip around creating a very tight suction which causes a suffocation risk.

There are approximately 40 affected products in the Republic of Ireland.

What to do:

If you purchased one of these products, please discontinue use **immediately**, and contact Amazon through your online account or your other place of purchase for a refund.
