## Renault Captur recall

 APRIL 10, 2015

Renault is voluntarily recalling the Renault Captur. This recall affects vehicles produced between January 2013 and November 2014.

There is a potential of a low leakage from both front flexible brake hoses or in extreme cases a sudden bursting of the flexible hose. This could lead to risk of brake fluid loss and cause reduced braking efficiency. This recall affects 1,458 vehicles in Ireland.

### **What to do**

Letters will be sent by Renault Ireland to owners of affected vehicles and customers will be asked to arrange an appointment to have the car repaired at an authorised service agent. This repair will be free of charge. Customers can also call Renault's Low-call number 1890 771 771 for more details.
