

PRODUCT RECALLS

Renault Ireland recall Kadjar

 APRIL 5, 2016

Renault Ireland is carrying out a voluntary recall of certain models of the Kadjar.

The affected vehicles were manufactured between July 2015 and March 2016.

In the event of a side impact that is severe enough to cause side air bag deployment, there is a risk of either non-deployment, or activation of the airbags on the opposite side to the impact.

There are 2,240 affected vehicles on the Irish market.

What to do:

Letters will be sent by Renault Ireland to owners of affected vehicles and customers will be asked to arrange an appointment to have the car repaired at an authorised service agent. This repair will be free of charge. Customers can also call Renault's Low-call number 1890 771 771 for more details.
