## Renault recall Clio IV

 JANUARY 30, 2017

Renault Ireland is carrying out a voluntary recall of certain models of the Clio IV manufactured between December 2012 and July 2015.

In sub-zero weather conditions the front windscreen blades arms may become frozen to the screen. In extreme circumstances when the wipers are activated, this may result in the wiper arm linkage to be weakened, detach or bend.

There are 4,919 affected vehicles in Ireland.

### **What to do:**

Letters will be sent by Renault Ireland to owners of affected vehicles and customers will be asked to arrange an appointment to have the car repaired at an authorised service agent. This repair will be free of charge. Customers can also call Renault's Low-call number 1890 771 771 for more details.
