Renault recalls Mégane IV, Scenic IV and KADJAR

📅 JUNE 27, 2017

Renault Ireland is carrying out a voluntary recall of certain models of the Mégane IV, Scenic IV and KADJAR manufactured between 20/09/2016 and 30/11/2016.

Issue

The mixture ratio of the ignition chemicals in the window airbags does not meet specifications and in the event of an accident this could prevent deployment of these airbags.

There are 432 of these vehicles on the Irish market.

What to do

Letters will be sent by Renault to owners of affected vehicles and customers will be asked to arrange an appointment to have the car repaired at an authorised service agent. This repair will be free of charge. Customers can also call Renault's Low-call number 1890 771 771 for more details.
