## Safety warning on gas cookers

 DECEMBER 4, 2009

A safety alert has been issued for certain Beko, Flavel, Leisure and New World cookers with a separate oven and grill.

These cookers can, if not operated in accordance with the user instructions, produce dangerous levels of carbon monoxide which can cause serious injury or death.

Do not under any circumstances operate the grill with the grill door closed.

### What to do:

Do not under any circumstances operate the grill with the grill door closed.

Check the product model numbers listed below to see if you own one of the affected cookers. The model and product code details are shown on the data badge at the bottom front edge of the appliance (see the image below).

Models affected:
