The risk presented by this product is scalding. An error in the manufacturing process may lead to a weakness at the base of the mug. This can cause the mug to leak or break when in contact with hot water. This may result in scalding to consumers.

These products were on sale from May to November 2024. There are approximately 21,660 affected products in the Republic of Ireland.

The list of retailers can be found [here](#).

What to do:

Customers should stop using the product immediately. Please return the product to place of purchase to receive a full refund. Alternatively, consumers can contact Shamrock Gift Company at customerservice@shamrockgiftcompany.com.
