

PRODUCT RECALLS

Toyota Ireland recalls RAV4

 FEBRUARY 29, 2016

Toyota Ireland is carrying out a voluntary recall of certain models of the RAV4.

In the event of a high-speed collision there is the possibility that the webbing on the outer rear seat belts could tear and separate if contact is made with a metal portion of the rear seat frame. If this occurs the seat belt may not properly restrain the occupant.

The production period extends from November 2005 until August 2012.

There are 4,215 vehicles affected in Ireland.

What to do

Toyota Ireland will be writing directly to those owners involved to arrange to have the repair carried out by their local dealer / authorised repairer. This repair will take place at a time convenient for them and at no cost to the owner. If you have a query you should contact your local Toyota Dealer/Authorised Repairer or Toyota Ireland directly on 01-419 0222.
