

PRODUCT RECALLS

Toyota Ireland Unlimited Company recalls certain Hilux passenger vehicles

 DECEMBER 8, 2020

Toyota Ireland Unlimited Company is carrying out a voluntary recall of certain Hilux passenger vehicles.

The affected vehicles were produced between September 2018 and March 2019.

A safety issue has been identified with the affected vehicles where in the brake booster of the subject vehicles, due to improper molding condition of the resin piston, the strength of piston could degrade. If this were to occur, the piston may break by operating the brake pedal repeatedly, and in the worst case, loss of braking assist while driving could increase the vehicle stopping distance.

There are approximately 196 affected vehicles in the Republic of Ireland.

What to do:

Toyota Ireland Unlimited Company will directly contact all affected customers by post advising them to make an appointment with their local Authorised Repairer where any necessary repairs/replacements of parts will be carried out.

To check if your vehicle is affected by this recall campaign, please visit the [🔗 Toyota Recall Checker](#) and input your Vehicle Identification Number (VIN).

If you believe that your vehicle may be impacted by this recall, then you can contact Toyota Ireland Unlimited Company's Contact Centre on Freephone 1800 111 113 or email recall@toyota.ie
