

PRODUCT RECALLS

Toyota Recall model RAV 4

 DECEMBER 5, 2017

Toyota Ireland is carrying out a voluntary recall of the model of RAV 4 which were manufactured between October 2015 to April 2017.

Toyota have identified a safety issue whereby there is a possibility that an electrostatic charge will be created in the fuel filter element and be discharged on the fuel connector. If this were to occur, through continuous usage, fuel may leak through the fuel connector and odour may be detected from the engine area. There are 3357 Toyota vehicles affected currently on the Irish market.

What to do

Toyota Ireland will be contacting consumers affected by this recall, by letter. Should consumers need any further information, please contact Toyota Ireland on the following telephone number: 01 419 0222.
